Melkamu Derso Awulew

Computer Science Graduate | Full-Stack Developer | Android Developer

Professional Summary

Computer Science graduate from Bahir Dar University, Institute of Technology, graduating in 2026, with hands-on experience in full-stack web development and Android application development. Experienced in designing and developing frontend and backend applications using TypeScript, React, Node.js, JavaScript, PHP, Laravel, Java, C++, HTML, and CSS. Developed a full-stack Internship Placement Management System as a final-year project using React, Node.js, and MongoDB. Also developed a Smart Attendance Mobile Application, gaining practical Android development experience. Seeking an entry-level Software Engineer, Full-Stack Developer, Web Developer, Backend Developer, Frontend Developer, or Android Developer position.

Project Experience

Internship Placement Management System — Final-Year / Graduation Project

- **Technologies:** React, Node.js, MongoDB, TypeScript, Visual Studio Code
- Built a responsive web interface using React and developed backend services and application logic using Node.js.
- Designed and managed application data using MongoDB.
- A centralized platform that helps the university, and host companies coordinate and work together to control and manage internship students effectively.

Smart Attendance Mobile Application — Academic / Personal Project

- **Technologies:** Android, Flutter, Dart, Android Studio
- Designed and developed a mobile application for simplifying and improving attendance recording and management.
- Implemented application functionality and attendance-related logic using Flutter.

Education

Bachelor of Science in Computer Science

- Bahir Dar University-Institute of Technology, Bahir Dar, Ethiopia | Graduated: 2026 | GPA: 3.28 | Exit Exam Result: 60%
- **Relevant Coursework:** Software Engineering; Object-Oriented Programming; Data Structures & Algorithms; Database Systems; Web Development; Mobile Application Development; Computer Networking; Operating Systems.

Languages

- **Amharic** — Native
- **English** — Good / Professional Working Proficiency

Career Objective

To begin my professional career as a Software Engineer or Full-Stack Developer in a challenging and collaborative environment where I can apply my knowledge of frontend development, backend development, databases, and mobile application development and I aim to contribute to meaningful software projects.

Skills

- **Programming Languages:** Java, C++, JavaScript, TypeScript, PHP, Node.js, HTML, CSS, Flutter
- **Frontend:** React, JavaScript, TypeScript, HTML, CSS, Responsive Web Design
- **Backend:** Node.js, PHP, Laravel, RESTful API Development, API Integration
- **Database:** MySQL, SQLite, MongoDB, PostgreSQL, Database Design, Data Management
- **Mobile:** Android Development, Java, Flutter, Dart, Mobile UI Development
- **Software Development:** Object-Oriented Programming, Full-Stack Development, REST APIs, JSON, Debugging & Troubleshooting
- **Tools:** Visual Studio Code, Android Studio, Git, GitHub, npm, AI-Assisted Development Tools

Core Competencies

Full-Stack Web Development • Frontend Development • Backend Development • Android Development • REST API Development • Database Management • Software Engineering • Object-Oriented Programming • Problem Solving • Debugging & Troubleshooting • Application Development.

Soft Skills

Problem Solving • Critical Thinking • Communication • Teamwork • Time Management • Adaptability • Self-Learning • Attention to Detail • Willingness to Learn • Ability to Work Independently

Certifications & Qualifications

- Bachelor of Science in Computer Science — Bahir Dar University, Institute of Technology, 2026.
